

Hygiene waste bin in stainless steel Article WP 138

- Full metal housing in robust, easy-to-clean stainless steel AISI 304, satin finished, all corners fully welded.
- Capacity approx. 5 litres.
- Waste deposited through self-closing, flame-retardant hinged flap.
- Housing door swings out to empty the bin.
- Equipped with hygiene bin made from plastic.
- Waste bin lockable with cylinder lock.
- Integrated storage container at top for paper sanitary bags.
- Simple mounting: insert in wall opening and secure in place; for installation in lightweight partition walls, create opening and provide some means of securing at the sides.
- Also available upon request in polished finish or with other surfaces.

Text suggestion for tender notices:
