General Description

- Soap dispenser of 1,5 L capacity, manufactured in stainless steel AISI 304, 0,8 mm thickness, to be installed directly on the wall and hand-operated by means of a push-button.
- Allows for three different types of soap (liquid, foam or spray). To use different soap type than the one originally purchased, the corresponding internal component must be acquired separately.
- Available in four finishes (white, matte black, bright and satin), these soap dispensers have a functional, robust and trendy design that matches the new range of Mediclinics bathroom accessories. This allows this soap dispenser to blend into any space perfectly.
- Suitable for high traffic facilities and for public use.
- Dispenses liquid soaps or hydroalcoholic gels, foam soap, or disinfectant spray depending on the selected version.
- It is mounted on the wall by means of four Ø4 stainless steel screws (provided) with their corresponding Ø 6mm plastic plugs (also provided).

Components & materials

- **BODY:** made of stainless steel AISI 304 four finishes.
- **HINGED COVER:** for operator convenience and speed of service. Opening on top with provided Mediclinics key that allows soap refill.
- **PUSH-BUTTON:** made of stainless steel.
- **INNER PLASTIC TANK:** made of plastic material, it prevents oxidation and that can be easily removed for cleaning and disinfection purposes.
- **LEVEL DISPLAY:** made of PVC and placed in the front part. It indicates the level of soap available inside the soap dispenser constantly.
- **VALVE:** anti-drip corrosion resistant valve that dispenses 1.5 ml of soap per service. This anti-drip valve, which dispenses liquid soap, is easily interchangeable with the valves of the other soap dispensers of the same line.
